MAHMOUD ASHOR BESHARY

Junior Data Analyst | Power BI • Tableau • SQL • Excel • Python

Cairo, Egypt • contact@example.com • LinkedIn • GitHub (Mahmoud-Ashor)

PROFESSIONAL SUMMARY

Data Analyst with a solid scientific background in Chemistry & Zoology, passionate about transforming raw data into actionable business insights, interactive dashboards, and data-driven solutions. Skilled in SQL querying, dynamic Power BI & Tableau dashboards, Advanced Excel, and Python for exploratory data analysis. Experienced in bridging rigorous Quality Assurance methodology with data analytics to solve real-world operational problems.

TECHNICAL SKILLS

Data Analysis & Visualization: Power BI, Tableau, Advanced Excel (PivotTables, Power Query, Power Pivot, DAX), KPI Tracking.

Database Management: SQL (T-SQL, Data Retrieval, Filtering, Complex JOINs, Aggregations, CTEs, Subqueries).

Programming & Tools: Python (Pandas, Jupyter Notebooks), Git & GitHub, VS Code.

Core Competencies: Data Cleaning, Exploratory Data Analysis (EDA), Data Validation, Data Normalization, Quality Assurance Standards.

FEATURED PROJECTS

Walmart Sales Analysis (2010–2012) | *Power BI, Power Query, DAX*

- Built a comprehensive retail analytics dashboard tracking multi-year sales performance across regional stores.
- Explored holiday vs. workday sales impacts, store-level seasonality trends, and correlation with macroeconomic indicators.
- Developed relational data model and custom measures to quantify demand variations and store growth.

Apex Supermarket Q1 Analytics Project | *Power BI, DAX*

- Designed an interactive Power BI dashboard analyzing Q1 retail performance for Apex Retail Group.
- Featured deep-dive metrics on revenue, COGS, gross margins, city-wise sales, and business developer contributions.
- Isolated performance bottlenecks and presented actionable insights to support resource reallocation.

Smartphones Market Analysis 2023 | *SQL Server, Excel*

- Conducted exploratory data analysis examining global smartphone hardware trends, pricing models, and 5G penetration.
- Wrote aggregate SQL queries and custom formulations to evaluate price-to-performance feature distributions.

Pizza Sales Store Analysis (2015) | *SQL, Power BI, Excel*

- Executed an end-to-end data analytics project processing full-year transactional sales records.
- Calculated key business KPIs including Total Revenue, Average Order Value, and peak operational demand hours.

PROFESSIONAL EXPERIENCE

In-Process Control (IPC) Specialist | *CIRA PHARMA Company* Jan 2025 – Present

- Perform real-time in-process quality control checks, physical testing, and parameter monitoring across production lines.
- Ensure strict adherence to Standard Operating Procedures (SOPs) and Good Manufacturing Practices (GMP).
- Document, log, and analyze daily batch records to detect process deviations and maintain product consistency.

In-Process Control (IPC) Specialist | *UNI PHARMA Company* Jul 2024 – Dec 2024

- Monitored key in-process parameters (weight variation, disintegration, hardness, and visual inspection) during manufacturing.
- Recorded operational data, audited production line logs, and reported quality variances to quality control management.
- Collaborated with production teams to troubleshoot line issues and maintain compliance with pharmaceutical standards.

EDUCATION

Bachelor's Degree in Chemistry & Zoology June 2022

Faculty of Science, South Valley University | **Grade: Very Good with Honours (81.7%)**

*Graduation Project: Acid chloride reactions preparation — **Grade: Excellent** (Covered synthesis, physical & chemical properties, reactions, and industrial uses).*

BOOTCAMPS & CERTIFICATIONS

Data Analyst Bootcamp: Alex The Analyst (Comprehensive training covering SQL, Excel, Power BI, Tableau & Python)

Google Data Analytics Certificate: Foundations: Data, Data, Everywhere

Google Data Analytics Certificate: Ask Questions to Make Data-Driven Decisions

Google Data Analytics Certificate: Prepare Data for Exploration

AI Fundamentals & Advanced Computer Skills: Certified Professional Training
